- V. Organization & Workgroup Updates (if time allows)
- VI. Closing - Please join us for our next meeting on Friday, January 17th!

Parent Coalition Update

TRAINING TO BE A PARENT LIKE

Meeting Focus Action Agenda:

Goal 1: Shared goals & understanding exists across the early childhood system related to babies born exposed to drugs.

% and # of children not reaching targeted outcome(s), broken down by demographics when possible (Targeted Problem(s)):

- 17% of children were born to mothers who received less than adequate prenatal care in 2014
- 10% Preterm births in 2014 (before 37 weeks).
- 2 infant deaths each year from 2010-2013, 1 infant death in 2014
- 7% of infants born with low birth weight
- 20.4% of mothers smoked while pregnant in 2017
- % of infants born with substances present
- % of infants removed from parental custody due to drug use
- Early On data - how many referrals due to substance abuse

Strategy: Engage collaborative members in the gathering of information about substance abuse while pregnant (as there is not much collected data about this issue). Collaboratively collect data and evidence related to this issue and examine potential root-causes.

Organization & Workgroup Updates

Please join us for our next GSC meeting on Friday, January 17th!

The next Parent Coalition meeting is Friday, December 6 from 1:30 - 3 pm at the Bad Axe Library.
